

# Welspun Global Brands Limited

*A Certified Woman  
Business Enterprise*

Innovation begins  
with the yarn

One out of every seven  
towels in the U.S. is made  
by Welspun

Hygro Cotton® patented  
hollow core yarns make  
super absorbent towels  
and sheets that regulate  
temperature.

Shrinking the  
Carbon Footprint  
with proprietary  
packaging that reduces  
33% during shipment vs.  
traditional packaging.

Goodnight Sleep™  
with SoftShield™  
technology : a  
patent pending  
mattress pad offers  
comfort and  
protection

Welspun UK Ltd.

## Innovative Home Fashions Supplier

Welspun is the leading home fashions supplier in the USA and amongst the top 3 global manufacturers of bed and bath linen. In 28 years, Welspun has grown from a small polyester yarn texturizing unit into a \$750 million home textiles supplier with presence in over 32 countries. Welspun is known for developing innovative patented and patent-pending products. We innovate to make our products smarter, our processes more efficient and our environment better. Welspun's eco-friendly, zero-discharge manufacturing facilities are located in Vapi and Anjar in Gujarat, India. We have a direct-to-consumer business via our UK Christy® brand, with a legacy of over 150 years and our Spaces Home & Beyond®, a decade old brand in India. We employ over 20,000 people globally.

## Bath and Bed Linen, Utility and Area Rug Assortment

Cotton terry towels and terry products, beach towels, blended towels, bath rugs and mats, bath robes, cotton and blended sheets, comforters, decorative pillows and accessories, mattress pads and down-alternative comforters, accent and area rugs.

## An End-to-End Solutions Provider

Our Mumbai corporate headquarters houses sales, merchandising, design and SCM teams providing expertise in merchandising and product planning. Our US Headquarters in NY houses expertise in sales, product design and marketing solutions. Our warehouse in Ohio provides domestic distribution solutions for major retailers and hospitality chains in the US. We also have warehousing and retail operations in the UK and Europe.

## State of the Art Manufacturing and Distribution

Our owned textile manufacturing facilities are Asia's largest, completely vertically integrated lines in farm- to-finish production across diverse products. Our strategic warehousing facilities are in key markets-USA, UK, Europe and India- to ensure seamless distribution.

## Accreditations & Certifications

- OEKO-TEX Standard 100
- ISO 14001 (Environmental Management System)
- ISO 9001 (Quality Management System).
- ISO 17025 (Laboratory Management System)

## Corporate Social Value

Welspun is committed to socially responsible growth and adding value to the communities in and around our facilities. We are committed to the empowerment of women, education, health and the environment. Our zero discharge manufacturing facilities respect and maintain a delicate ecological balance. We recycle all the water that we use in our processes and practice rainwater harvesting. 85% of the water can be reused and the remaining 15% evaporates. We use the sludge from the recycling process to produce biogas.

## Global Supplier to Major Retailers, Hospitality and HealthCare
